Escalator Safety Brush Promotion Raises Funds for EESF

January 19, 2009 - Oshawa, Canada - For the past 18 years the EESF (Elevator Escalator Safety Foundation) has been educating children, senior citizens and the general public with its safety messages. Each year this non-profit organization seeks the assistance of individuals, schools, groups and corporations to fulfill its vision of educating the public on the safe and proper use of elevators, escalators and moving walks through informational programs.

Last September, EHC Global announced to its customers that for each Escalator Safety Brush kit purchased, \$10.00 USD would be donated to the Elevator Escalator Safety Foundation to help support their programs.

The promotion took place during the last quarter of 2008 and thanks to EHC customers, US\$2,860 will be donated this month.

The EESF is seeking to further spread its message on safety as thousands of passengers are still being injured each year. In 2007, the Consumer Product Safety Commission estimated that 11,000 people were injured on escalators across the US and side-step entrapments were one of the major causes of injuries.

Commenting on the initiative was Monica Stoer, General Manager Sales & Marketing, The Americas, "EHC has been a longstanding supporter of EESF financially but also through volunteer work. This year we took a different approach because we wanted our customers to know that they are also contributing through us to the safety and wellbeing of families when they buy our escalator safety brushes."

Founded in 1977, EHC Global is a worldwide manufacturer and distributor of escalator components, escalator handrail advertising, polyurethane products and radiation detection equipment. EHC has manufacturing facilities in Canada, China, Germany and Slovakia. In addition, EHC has sales offices and partners in the USA, Mexico, Venezuela, Japan, Korea, Singapore, Austria, UK, Sweden, France, Spain, Portugal, Italy and Turkey.

For more information about EHC Global, visit www.ehc-global.com. For information regarding how you can support the mission of the Elevator Escalator Safety Foundation, visit www.EESF.org or call (800) 949-6442. The Foundation's mission is to educate the public on the safe and proper use of elevators, escalators and moving walks through informational programs.
